Product Highlights

- ***Crystal Clear Video***

With Crystal Clear Video, Philips has created the perfect combination of technologies to guarantee the best possible picture restitution:
- *Digital Studio Picture Control: Optimises the picture rendition regardless of the quality of tape used.*
- *Laser cut Video Heads: They have a better profile for a superior head/tape contact. Lesser wear guarantees longer life and higher performance quality.*
- *Studio Tracking System: It improves the tracking accuracy and reduces the crosstalk noise.*
- *Natural Colour: It cleans the colour from any kind of noise and corrects the spill.*

- ***Tape Manager***

Tape Manager gives a dedicated number to any new tape inserted in the VCR. Each time you make a recording on that cassette, the VCR will download the programme title (if available from the broadcaster) and will store it in the VCR's memory. If the title wasn't available, the date of recording and the programme number are stored instead. Tape Manager offers you the possibility to add or remove cassettes from the system and to find or edit the titles easily.

- ***Turbo Timer***

Is Timer Programming complicated? No!
Is Timer Programming time consuming? No!
Just push the Turbo Timer button on the remote control. The display of your VCR asks you then for the start and end time as well as the programme's number. That´s it. Just a number of seconds.

- ***Easy Link***

Easy Link offers maximum convenience when it comes to installing a VCR. There's no need to wait endlessly for the tuning of all channels or to spend time re-sorting the presets in the right order. You just connect both VCR and TV with a Scart cable and plug the mains. That's all! On top of that features like Automatic On/Off switching of the TV when the VCR is used, Direct Record and automatic 16x9 switching make the daily life of the VCR user much easier.

- ***SMART Picture***

With this unique feature, you are now able to optimise the sharpness and colour, in playback, to your own preference.
